

MORGAN PLUS 4

70TH ANNIVERSARY EDITION

INTRODUCING THE MORGAN PLUS 4 70TH ANNIVERSARY EDITION TO CELEBRATE 70 YEARS OF MORGAN'S MOST POPULAR MODEL, THE PLUS 4.

First built in 1950, the Plus 4 is one of the Morgan's best-selling models throughout seven decades of production. In 2019, Morgan announced that models built on its famous steel chassis will cease production in 2020, and the Plus 4 70th Anniversary Edition commemorates this important moment. For the first time ever, the chassis will be painted in gold, highlighting its significance in Morgan's 111-year history.

Just 20 Plus 4 70th Anniversary Edition cars are to be built, each featuring a distinctive numbered plaque which highlights their individuality.

Morgan has created a unique specification that provides a timeless, sophisticated look, and nods to Morgan's rich past. Platinum Metallic paint – a platinum anniversary being a celebration of 70 years – complements the satin dark grey wire wheels, while a motorsport-inspired front valance and exterior black pack including a black stone guard, A-pillars and side screens form a purposeful aesthetic.

Celebrating 70 years of Morgan's most popular model

SPECIFICATION*

Engine	Ford GDI 1999cc	Combined MPG	39.8 mpg (7.1 litres / 100km)
Gearbox	Mazda 5 Speed manual	Combined Co ₂	199g / km
Max Power	115 kw (154 bhp) @ 6000 rpm	Dry Weight	927kg
Max Torque	201 Nm (148 lb/ft)	Length	4010mm
Performance 0 - 62	7.5 seconds	Width	1720mm
Top Speed	118 mph (189 kph)	Height	1220mm

Inside the car, the finest grade of leather has been sourced exclusively for the Plus 4 70th Anniversary Edition, this is provided by Muirhead, suppliers of fine British leather. The interior is further enhanced by a Ravenwood veneer dashboard, dark grey box weave carpets and a satin black Mota-Lita steering wheel. Heated 'performance' seats, footwell lighting, and an exclusive commemorative Photographic Build Record are also included with the car.

To match the 70th Anniversary Edition's dynamic look, its performance and distinctive engine note have been enhanced. The cars come with an engine map configured by Aero Racing, Morgan's in-house motorsport specialists, raising power from 154bhp (115kW) to 180bhp (134kW), and taking its 0-62mph (0-100kph) acceleration time down to less than seven seconds. Alongside this, the cars are fitted with an Aero Racing sports exhaust, finished with a black tail pipe.
